### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, in the paragraph amended by the preliminary amendment filed 19 August 2003, in line 2, after "1994" insert --, now U.S. Patent No. 6,638,413".

### **EXAMINER'S COMMENT**

Since Applicant has asserted electrolysis of water to produce hydrogen and oxygen as a utility of the invention, which is a believable and well known utility, the claims meet the requirements of 35 USC 101. The Examiner would like to clarify though that the USPTO is not providing any endorsement of the "excess heat" production attributed to the certain embodiments of the apparatus by Applicant in the specification.
